OLLO & ZORA

Design Cyndi

Design Wenqi

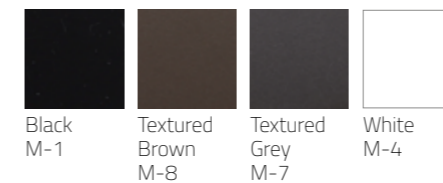

Enjoy added value with the versatile and multifunctional design of the Ollo. Adopting the palindrome nature of its name, the Ollo can be used as a stool but when taken out of the frame and flipped around it conveniently transforms into a side table. The frame also doubles as protection for the cushion, allowing the Ollo to be stacked to save space.

Standard Metal Colours

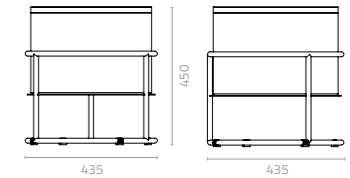

Give a fresh look to your space with an upgrade to a greener lifestyle. The Zora is made by refurbishing existing carcass shells to reduce wastage. Customise it with a fabric of your choice to better suit your space. A simple and universal design that blends well in any space.

GAJAH & PINNA

Design Hans Thyge & Co

Gajah chair
W615 x D585 x H740 x SH450mm
Packing: 0.300m³, 1pc/ctn

Everything is big about this chair. Like its name implies, the Gajah Chair (*gajah* means 'elephant' in the Malay language), offers an invitingly deep seat and a generously wide back, complete with two wings that resemble an elephant's huge ears. This fully assembled chair sits on a solid beech wooden frame while the Lounge version has a metal mild steel frame.

Simple Nordic designs cascade the Pinna series of chairs. Sit snugly within the cosy confines of the Pinna Chair, surrounded by upholstered sides, backrest and an integrated cushion. The fine, tapered legs of solid beech or solid oak wood highlight the chair's elegance. Pinna is an easy fit with any restaurant décor, whether modern, vintage, hi-tech, romantic or country. Or sink into the great comfort of the Lounge Chair version. The more informal tone of the Lounge Chair version makes it just the thing to have in meeting rooms as well as hotel lobbies and rooms.

Stackable

If extreme comfort is priority when choosing a chair, then you can't go wrong with the Blow chair. The designer aims at making it "the most comfortable upholstered chair in the world". Elegant and voluptuous in volume, rounded and modern in design, Blow is in a class of its own. Its ability to be stackable up to three units is an added bonus. Both side chair and arm chair are available in solid beech and oak.

Upholstered comfort, light for its category and stackable up to three chairs, the Cady has all the features that make this chair a popular item to have for any indoor setting. The low rounded backrest with soft surround snugly cradles and supports the back.

ELI, JEAN & HOOK

Design Enrique Martí

Discreet, elegant and stackable, the versatile Eli Chaireven has two different sizes to offer. This flexibility makes the chair ideal for the hospitality and contract markets. Move and place it anywhere indoors where a seat is needed and it won't look out of place. A frame of either beech or solid oak gives the chair its strength and sturdiness. Comfort is also assured with the soft, upholstered back and seat.

Aptly named the Country chair, it's a clear example of how the same design can be adapted to suit different cultures and styles by changing only slight details such as the backrest. Country's easy adaptability allows distinctive features of different cultures to be incorporated into the design as the chair crosses borders from Europe to Asia. Nonetheless, Country I is distinctively Italian in feel.

East meets West in the Dojo Chair. The purity of the chair's design reflects both Japanese and Scandinavian furniture traditions which pays homage to the beauty of nature and the skill of craftsmen who coax the highest value out of natural materials. The Dojo Chair has a solid beech or ash frame and a shell of bentwood and beech or ash veneer. Rounded edges, curved surfaces and a wide seat combine to present this timeless classic.

With soft sensual curves in all the right places ranged up against the solid straightness of a strong frame, this reinterpretation of a Scandinavian classic design has an arresting presence. Dana's beguiling allure is heightened by its petite build and lightness of weight. Dana is available in beech. Non-stackable.

FLOAT

Design Enrique Martí

As its name suggests, the Float inventively uses a slender steel frame to give off the illusion that the seat and backrest are freely 'floating'. By delicately weaving this minimalistic look with a traditional Scandinavian design, the Float achieves its goal of being an all-purpose contract chair that will give any setting a coherent look.

INICIO BISTRO

Design John Kelly

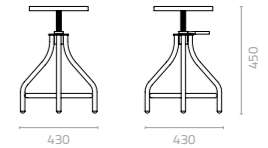

The hallmark feature of the Inicio Bistro collection is the adjustable heights of the bistro stool, highstool, complete with lock mechanisms. Stylish and versatile, the Inicio Bistro Highstool, which does not have a backrest, is the ideal solution for the kitchen or bar area, whatever the height of the counter. The seat is made of either metal or rubberwood. Finished with epoxy or antique brass.

The beautiful neckline of the Japanese traditional Kimono inspired the Kino Series. Sleek and uncomplicated in design, except for the unique table top detailing, the Kino Series effortlessly accommodates both indoor and outdoor environments. It has a phenolic top fitted onto a galvanized mild steel frame.

ILLUSION

Design Cyndi

Whether your keeping people in or out, or just plain setting boundaries in your workspace, the Illusion Barrier Stand does the job perfectly with its versatile design features; works well with a chain-to-hook-up method or clip system. Finished in powder-coated and heat-transfer timber finishing, oozing a minimal and clean look and feel because less is more.

Flexibility usage

Works well with chain to hook-up and clip system.

LEAF

Design Silvia Marlia

The Leaf Collection is designed as a tribute to nature and to the beauty, geometry and resilience of cactus plants which flourish despite very extreme conditions. Leaf Fan and Leaf Oval, which has a lower seat, are lounge chairs while Leaf Oblong is a slim dining chair. The footrest doubles as a stool or as a side table to complement the chairs. The family of chairs is inspired by the shapes of leaves.

Packing: 0.450m³, 4pcs/ctn

Vibrant, oversized and extremely comfortable, the Massai Collection reflects the vastness of Africa. This popular range of chairs has been extended to include a more contemporary lounge style but retains the same ethnic feel, soft surface and extreme comfort. The Collection incorporates the use of EPDM rubber, an extremely durable synthetic rubber membrane that's inserted as a solid rubber infill within the woven fabric to maintain the shape of the back and seat of the chair.

CLEO & VICTORIA

Design Enrique Martí

Like a multi-talented performer, the customisable Victoria table can serve multiple purposes since the choice of table height and size is wholly up to you. Opt for a rectangular table top as a dining table, or a square one for a lamp table or a console table. The rounded corners makes this table a safer option in home and hospitality environments where the presence of young children is a consideration. Table top is available as wood veneer or HPL.

BARKAS

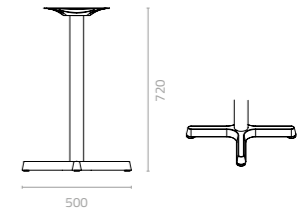

Design Hans Thyge & Co

How spectacular a table looks depends on the quality of both its table top and its base. The beauty of the Barkas table base is its classic simplicity, clean look and versatility. Constructed out of cast iron, it also features a mix of surfaces between the column and the raw casting surface of the cross-shaped base. Make your own exclusive versions of the Barkas base for your restaurant or café by choosing various techniques such as painting it with different colours and sanding the top surface.

BONDE

Design Cyndi

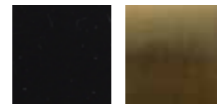

Bonde table base
D380 x H720mm
Packing: 0.127m³, 1set/ctn

Shaken, not stirred. The dashing Bonde is the perfect addition to dining and social environments in need of a luxurious finish. Six angled metal stands make up the main structure of the table base and are placed in unison to exude an air of class, with the added benefit of great stability. Due to the nature of the design, the Bonde can easily be flat packed to save on space and shipping costs.
