# BIOMASS COLLECTION

Discover our exquisite range of eco-friendly bio polymer chairs that embody sustainability and style. Crafted from upcycled agro-waste, our chairs make a profound positive impact on the environment. By choosing our bio polymer collection of chairs, you're not only making a smart and responsible choice that enhances your lifestyle but also actively contributing to the betterment of our precious planet. Make a statement with your furniture; choose eco-conscious elegance.

# VESPER

The Vesper chair – the proud winner of the prestigious Archidex Star Award in the Sustainability Category for 2023. Crafted from a blend of Polypropylene (PP) and Rice Husk, an exceptionally sustainable agro-waste material, these chairs represent the epitome of eco-conscious design. They not only emit minimal energy and greenhouse gases during production but also contribute to the conservation of precious fossil fuel resources. These chairs boast USDA certification as Bio-based materials, listed in the esteemed USDA Bio-Preferred Catalogue. Rest easy knowing that no deforestation or land clearing was involved in their creation.

# VESPER

An innovative product made from Polypropylene (PP) and Rice Husk, a highly sustainable agro-waste material. They emit less energy and greenhouse gases during production, and their use helps to conserve fossil fuel resources.
